BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND
HUMAN SERVICES

Food and Drug Administration

[Docket No. 93E-0213]

Determination of Regulatory Review
Period for Purposes of Patent
Extension; Claritin®

AGENCY: Food and Drug Administration,
HHS.

ACTION: Notice.

SUMMARY: The Food and Drug
Administration (FDA) has determined
the regulatory review period for
Claritin® and is publishing this notice
of that determination as required by
law. FDA has made the determination
because of the submission of an
application to the Commissioner of
Patents and Trademarks, Department of
Commerce, for the extension of a patent
which claims that human drug product.
ADDRESSES: Written comments and
petitions should be directed to the

Dockets Management Branch (HFA-
305), Food and Drug Administration,
rm. 1-23, 12420 Parklawn Dr.,
Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: John
Ensign, Office of Health Affairs (HFY-
20), Food and Drug Administration,
5600 Fishers Lane, Rockville, MD
20857, 301-443-1382.

SUPPLEMENTARY INFORMATION: The Drug
Price Competition and Patent Term
Restoration Act of 1984 (Pub. L. 98-417)
and the Generic Animal Drug and Patent
Term Restoration Act (Pub. L. 100-670)
generally provide that a patent may be
extended for a period of up to 5 years
so long as the patented item (human
drug product, animal drug product,
medical device, food additive, or color
additive) was subject to regulatory
review by FDA before the item was
marketed. Under these acts, a product's
regulatory review period forms the basis
for determining the amount of extension
an applicant may receive.

A regulatory review period consists of
two periods of time: a testing phase and
an approval phase. For human drug
products, the testing phase begins when
the exemption to permit the clinical
investigations of the drug becomes
effective and runs until the approval
phase begins. The approval phase starts
with the initial submission of an
application to market the human drug
product and continues until FDA grants
permission to market the drug product.
Although only a portion of a regulatory
review period may count toward the
actual amount of extension that the

Commissioner of Patents and
Trademarks may award (for example,
half the testing phase must be
subtracted as well as any time that may
have occurred before the patent was
issued), FDA's determination of the
length of a regulatory review period for
a human drug product will include all
of the testing phase and approval phase
as specified in 35 U.S.C. 156(g)(1)(B).

FDA recently approved for marketing
the human drug product Claritin®.
Claritin® (loratadine) is indicated for
the relief of nasal and non-nasal
symptoms of seasonal allergic rhinitis.
Subsequent to this approval, the Patent
and Trademark Office received a patent
term restoration application for
Claritin® (U.S. Patent No. 4,282,233)
from Schering Corp., and the Patent and
Trademark Office requested FDA's
assistance in determining this patent's
eligibility for patent term restoration.
FDA, in a letter dated July 15, 1993,
advised the Patent and Trademark
Office that this human drug product had
undergone a regulatory review period
and that the approval of Claritin®
represented the first commercial
marketing of the product. Shortly
thereafter, the Patent and Trademark
Office requested that FDA determine the
product's regulatory review period.

FDA has determined that the
applicable regulatory review period for
Claritin® is 3,751 days. Of this time,
1,395 days occurred during the testing
phase of the regulatory review period,
while 2,356 days occurred during the
approval phase. These periods of time
were derived from the following dates:

1. *The date an exemption under section 505(i) of the Federal Food, Drug, and Cosmetic Act became effective:* January 6, 1983. FDA has verified the applicant's claim that January 6, 1983, was the date the investigational new drug application (IND) became effective.

2. *The date the application was initially submitted with respect to the human drug product under section 505(b) of the Federal Food, Drug, and Cosmetic Act:* October 31, 1986. FDA has verified the applicant's claim that October 31, 1986 was the date the new drug application (NDA) for Claritin® (NDA 19-658) was initially submitted.

3. *The date the application was approved:* April 12, 1993. FDA has verified the applicant's claim that new drug application (NDA 19-658) was approved on April 12, 1993.

This determination of the regulatory review period establishes the maximum potential length of a patent extension. However, the U.S. Patent and Trademark Office applies several statutory limitations in its calculations of the actual period for patent extension. In its application for patent extension, this applicant seeks 731 days of patent extension.

Anyone with knowledge that any of the dates as published is incorrect may, on or before November 1, 1993, submit to the Dockets Management Branch (address above) written comments and ask for a redetermination. Furthermore, any interested person may petition FDA, on or before February 28, 1994, for a determination regarding whether the applicant for extension acted with due diligence during the regulatory review period. To meet its burden, the petition must contain sufficient facts to merit an FDA investigation. (See H. Rept. 857, part 1, 98th Cong., 2d sess., pp. 41-42, 1984.) Petitions should be in the format specified in 21 CFR 10.30.

Comments and petitions should be submitted to the Dockets Management Branch (address above) in three copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. Comments and petitions may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: August 20, 1993.

Stuart L. Nightingale,
Associate Commissioner for Health Affairs.

BILLING CODE 4160-01-F

[Docket No. 91F-0390]

Ciba-Geigy Corp.; Withdrawal of Food Additive Petition

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the withdrawal, without prejudice to a future filing, of a food additive petition (FAP 1B4290) proposing that the food additive regulations be amended to provide for the safe use of C₇-C₉-branched alkyl 3,5-di-*tert*-butyl-4-hydroxyhydrocinnamate as an antioxidant in lubricants that have incidental food contact.

FOR FURTHER INFORMATION CONTACT: Mitchell Chessman, Center for Food Safety and Applied Nutrition (HFS-216), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-254-9511.

SUPPLEMENTARY INFORMATION: In a notice published in the Federal Register of November 6, 1991 (56 FR 56656), FDA announced that a food additive petition (FAP 1B4290) had been filed by Ciba-Geigy Corp., Seven Skyline Dr., Hawthorne, NY 10532-2188. The petition proposed that § 178.3570 *Lubricants with incidental food contact* (21 CFR 178.3570) be amended to provide for the safe use of C₇-C₉-branched alkyl 3,5-di-*tert*-butyl-4-hydroxyhydrocinnamate as an antioxidant for use in lubricants that have incidental contact with food. Ciba-Geigy Corp. has now withdrawn the petition without prejudice to a future filing (21 CFR 171.7).

Dated: August 13, 1993.

Fred R. Shank,
Director, Center for Food Safety and Applied Nutrition.

BILLING CODE 4160-01-F

Social Security Administration

Privacy Act of 1974; Report of New Routine Use

AGENCY: Social Security Administration (SSA), Department of Health and Human Services (HHS).

ACTION: New routine use.

SUMMARY: In accordance with the Privacy Act (5 U.S.C. 552a(e)(11)), we are issuing public notice of our intent to establish a new routine use of information maintained in the system of records entitled "Earnings Recording and Self-Employment Income System,

HHS/SSA/OSR, 09-60-0059" (Earnings Record).

The proposed routine use will permit SSA to disclose tax return information to the Department of Veterans Affairs (VA), through September 30, 1997, to administer certain VA programs pursuant to section 6103(l)(7) of the Internal Revenue Code (IRC) (26 U.S.C. section 6103(l)(7)), as amended by section 602 of the Veterans' Benefits Act of 1992, Public Law (Pub. L.) No. 102-568.

We invite public comments on this publication.

DATES: The proposed routine use will become effective as proposed without further notice on October 1, 1993, unless we receive comments on or before that date which would warrant our preventing the routine use from taking effect. No information will be disclosed under the proposed routine use after September 30, 1997, unless otherwise specifically permitted by statute.

ADDRESSES: Interested individuals may comment on this proposal by writing to the SSA Privacy Officer, 3-D-1 Operations Building, 6401 Security Boulevard, Baltimore, Maryland 21235. All comments received will be available for public inspection at the above address.

FOR FURTHER INFORMATION CONTACT: Ms. Joan Green, Social Insurance Specialist, Confidentiality and Disclosure Branch, Office of Regulations, 6401 Security Boulevard, Baltimore, Maryland 21235, telephone 410-965-1739.

SUPPLEMENTARY INFORMATION:

I. Discussion of the Proposed Routine Use

On September 18, 1991, we published a routine use in the Federal Register (FR) (see 56 FR 47220) which provided that we would disclose information obtained from tax returns or schedules filed with the Internal Revenue Service (IRS) to the VA to administer various programs under title 38 of the United States Code. (The programs are identified below in the proposed routine use statement.) The basis for the routine use was section 6103(l)(7) of the IRC, as amended by section 8051 of the Omnibus Budget Reconciliation Act of 1990, Pub. L. No. 101-508, requiring the Commissioner of Social Security to disclose the information to the VA. Our authority under section 6103(l)(7) to disclose the information expired on September 30, 1992. We withdrew the routine use from publication in the Federal Register on November 24, 1992 (see 57 FR 55265).
